On the streets today, we need to teach our children about the green and red traffic lights. The lights must be obeyed for their safety, and to look both ways before crossing the street. Asking questions as in Green Light, Red Light, Go will stimulate their minds to grow by reading this book. It will teach them the rules of traffic lights, not to cross on green, cars are to go on green, and on the red light they are to go. We hear every day the reports of children being hit by cars. This book will teach them to keep their minds on when they cross the street, and not to step out onto the street before looking both ways.
