Why do you feel an instant attraction to one person and not another? And how can you help ensure that a connection lasts? With her ability to deliver cutting edge information in a lighthearted style, communications expert Leil Lowndes has made a career of teaching the secrets of successful interaction.

In this book, based on the latest findings in cognitive science, she shows readers how to spark that elusive feeling of chemistry with almost anyone--and sustain it when the relationship moves to the next level, from marriage to parenthood and beyond.

Although chemistry affects nearly every relationship, few people understand it--what initiates it, what destroys it, and what makes it last forever. While genetic makeup and past experiences all play a role, there are many things you can do to influence it.

Ultrapractical, "How to Create Chemistry with Anyone" turns the complex neurological science of attachment into 75 easy communication strategies and unusual techniques that show readers what to do--and what "not" to do--to find and keep love.

## 评论

简单粗暴 大概用在亚洲男生会被当slut

-----  
作者什麼都用科學+事例來解釋，看上去很有說服力，可是我還是比較相信緣分和默契  
這些無須言說不需要外力的東西！不過這本書的語言和風格是我喜歡的，簡單有趣，學  
了很多英語單詞！
