How do we account for what makes us happy? Everybody wants to be happy. But how much happiness - precisely - will each life choice bring? Should I get married? Am I really going to feel happy about the career that I picked? How can we decide not only which choice is better for us, but how much it's better for us? The result of new, unique research, The Happiness Equation brings to a general readership for the first time the new science of happiness economics.

## 作者介绍:

Dr nattavudh(Nick) Powdthavee is a behavioural economist at the University of York(Shortly to move to the Department of Economics, Nanyang Technological University, Singapore)
