Vera Nicolaevna Figner (1852-1942) lived a revolution for forty-five of her ninety years and was an icon of that revolution in her last twenty-five years. This work functions as moral witness and personal testimony. Liberalism, along with nationalism, was considered revolutionary by conservatives who deployed barbarous methods against it, and this justified to the rebels their own resort to violence.

本书可以详细了解为什么俄国革命者变成极端主义者。Figner的想法不见得正确，但对全面了解俄国革命很有意义。
