作者介绍:

Dr. Geng Junymg brings over twenty-five years of experience to this, his most recent work on traditional Chinese medicine. Dr. Geng is an Associate Professor and the Deputy Director of the Acupuncture Department at the Beijing College of Traditional Chinese Medicine. He has spent virtually his entire career at this prestigious school, where he has been teaching, researching, and con-

ducting clinical practice since his graduation in 1964. His publications in Chinese include Studies of the Five Tastes of Herbs. Contraindications and Interdependence in Herbal Formulas, and Chinese Moxibustion Therapy. In English, he has written Acupuncture and Moxibustion in conjunction with Ms. Su Zhihong and Medicinal Herbs and Herbal Formulae with Mr. Huang Wenquan.

Forthcoming Titles on  
TRADITIONAL CHINESE MEDICINE  
TRADITIONAL CHINESE MEDICINE  
AND PHARMACOLOGY-A Textbook  
for Foreign Students at Colleges of  
Traditional Chinese Medicine  
Compiled by State Administration for  
Traditional Chinese Medicine  
This is the first official textbook put out by  
the Chinese State Administration for Traditional  
(Continued on back flap )

目录: Contents  
Preface  
Introduction  
Chapter 1  
The Yin-Yang and Five Elements Theories  
Section 1  
The Theory of Yin-Yang  
1. The Basic Content of Yin-Yang Theory  
2. The Application of Yin-Yang Theory to the Field of Traditional Chinese Medicine  
Section 2  
The Five Elements Theory  
1. The Basic Content of the Five Elements Theory  
2. Application of the Five Elements Theory

to Traditional Chinese Medicine

Chapter 2

The Zang-Fu Theory

Section 1

The Five Zang Organs

1. Heart

1.a. Pericardium

2. Lung

3. Spleen

4. Liver

5. Kidneys

5.a. Uterus

Section 2

The Six Fu Organs

1. Gall Bladder

2. Stomach

3. Small Intestine

4. Large Intestine

5. Urinary Bladdei

6. Sanjiao

Chapte 3

Qi, Blood, and Body Fluid

Section 1

Qi

1. Primary Qi (yuan qi)

2. Aggregative qi (zong qi)

3. Nutrient Qi (ying qi)

4. Defensive Qi (wei qi)

Section 2

Blood

Section 3

Body Fluid

Chapter 4

The Theory of Channels

And Collaterals

Section 1

The Formation and Functions

of Channels and Collaterals

1. Channels and Collaterals Systems

2. Channels and Collaterals Functions

Section 2

The Twelve Regular Channels

1. The Lung Channel of the Hand Taiyin

2. The Large Intestine Channel of the Hang-Yangming

3. The Stomach Channel ofthe Foot-Yangming

4. The Spleen Channel of the Foot-Taiyin

5. The Heart Channel ofthe Hand-Shaoyin

6. The Small Intestine Channel of the Hand-Taiyang

7. The Urinary Bladder Channel of the Foot-Taiyang

8. The Kidney Channel of the Foot-Shaoyin

9. The Pericardium Channel of the Hand-Jueyin

10. The Sanjiao Channel of the Hand-Shaoyang

11. The Gall Bladder Channel of the Foot-Shaoyang

12. The Liver Channel of the Foot-Jueyin

### Section 3

Pathways, Conjunctions, Exterior-Interior Relationships and the Order of Qi Flow in the Channels

1. Pathways and Conjunctions
2. Exterior-Interior Relationships and the Order of the Qi Flow in the Channels

### Section 4

Eight Extra Channels

1. The Ren Channel
2. The Du Channel
3. The Chong Channel
4. The Dai Channel
5. The Yinwei Channel
6. The Yangwei Channel
7. The Yinqiao Channel
8. The Yangqiao Channel

### Section 5

The Fifteen Collaterals

### Section 6

The Twelve Divergent Channels

### Section 7

The Twelve Musculotendinous Regions of the Regular Channels

### Section 8

The Twelve Cutaneous Regions of the Regular Channels

### Chapter 5

Etiology

### Section 1

Six Exogenous Factors

1. Wind
2. Cold
3. Summer-Heat
4. Damp
5. Dryness
6. Fire Heat or Mild Heat

### Section 2

Pestilential Factors

### Section 3

Seven Emotional Factors

### Section 4

Other Pathogenic Factors

1. Irregular Diet
2. Traumatic Injuries and Parasites
3. Phlegm-Humor and Blood Stagnation

### Chapter 6

Methods of Diagnosis

1. Observation of the Mind
2. Observation of the Complexion
3. Observation of the Tongue

### Section 2

Auscultation and Olfaction

### Chapter 7

# Differentiation of Syndromes

## Section 1

### Differentiation of Syndromes

#### According to the Eight Principles

1. Exterior and Interior
2. Cold and Heat
3. Xu (deficiency) and Shi (Excess)
4. Yin and Yang

## Section 2

### Differentiating Syndromes According to the Zang-Fu Organs

1. Differentiating Syndromes of the Heart
2. Differentiating Syndromes of the Liver
3. Differentiating Syndromes of the Spleen
4. Differentiating Lung Syndromes
5. Differentiating Syndromes of the Kidney
6. Differentiating Syndromes of the Small Intestine
7. Differentiating Syndromes of the Large Intestine
8. Differentiating Syndromes of the Urinary Bladder
9. Differentiating Syndromes of the Stomach
10. Differentiating Gall Bladder Syndromes

## Section 3

### Differentiating Syndromes According to the Theories of the Six Channels, Four Stages of Wei, Qi, Ying and Xue, and Sanjiao

1. Differentiating Syndromes According to Six Channels Theory
2. Differentiating Syndromes According to the Theory of Wei, Qi, Ying, and Xue
3. Differentiating Syndromes According to the Sanjiao Theory

## Chapter 8

### Therapeutic Principles

1. The Principle of Biao and Ben
2. Strengthening the Zheng Qi and Dispelling Xie Qi
3. Principle of Treatment Based on Climatic and Seasonal Conditions, Geographic Localities, and Patient's Personal Conditions
