4.The Land of Tebbus

In 1925, after a precarious journey through bandit-infested Sichuan, Joseph Rock arrived at Choni of Gansu province, from where he started his explorations of Minshan range, Tebbu Valley near the Amnyi Machen range. He ventured into Kokonor region, visited the monasteries at Labrang and Ragya.

With remarkable black and white, as well as colored photos, Rock provides an important historical record of social, political and religious life and culture on the Chinese frontiers in the early twenty century. This book is of great value to specialists as well as travelers who will tread in Rock's footsteps.
