If you would like to become a truly great trader --either for yourself or for a proprietary trading firm, this book will help you get there. It is the only book of its kind, based on one of most successful trader training programmes--and the closest thing to signing up for a "trader boot camp". You can watch new traders execute trades and then learn by following their expert instructors' tough critiques. You will learn how to master the multiple trades and strategies you need to survive and succeed as a professional trader. Packed with colour, personality, and realism, there's never been a more exciting guide to real-world trading--or a more valuable one!
