Get Started Fast with Modern JavaScript Web Development! With the arrival of HTML5, jQuery, and Ajax, JavaScript web development skills are more valuable than ever! This complete, hands-on JavaScript tutorial covers everything you need to know now. Using line-by-line code walkthroughs and end-of-chapter exercises, top web developer

and speaker Tim Wright will help you get results fast, even if you've never written a line of JavaScript before. Smart, friendly, enthusiastic, and packed with modern examples, Learning JavaScript covers both design-level and development-level JavaScript. You'll find expert knowledge and best practices for everything from jQuery and interface design to code organization and front-end templating. Wright's focused coverage includes regular break points and clear reviews that make modern JavaScript easier to learn-and easier to use! Learning JavaScript is your fastest route to success with JavaScript-whether you're entirely new to the language or you need to sharpen and upgrade skills you first learned a decade ago! Coverage includes *

- * Mastering all of the JavaScript concepts and terminology you need to write new programs or efficiently modify existing code
- * Creating robust, secure code for both the design and development levels
- * Maximizing usability, reusability, accessibility, clarity, security, and performance
- * Taking full advantage of the browser environments your code will run in
- * Accessing the DOM to create behaviors and data interactions
- * Storing data for easy and efficient access
- * Using variables, functions, loops, and other core language features
- * Interacting with users through events
- * Communicating with servers through Ajax
- * Improving your productivity with JavaScript libraries
