

UNIX操作系统教程

[UNIX操作系统教程_下载链接1_](#)

著者: Sarwar

出版者: 机械工业出版社

出版时间: 2002-1

装帧: 简装本

isbn: 9787111100980

The book is laced with many diagrams and tables, hundreds of in-chapter tutorials and

interactive shell sessions, in--chapter exercises, and end-of chapter problems. A syntax box for every command, tool, and application covered describes the syntax of the command, its purpose, the output produced by the command, and its useful options and features. In addition, every chapter contains a summary of the material covered in the chapter.
