装帧:Hardcover

isbn:9780857020420

Everyday life is defined and characterised by the rise, transformation and fall of social

practices. Using terminology that is both accessible and sophisticated, this essential book guides the reader through a multi-level analysis of this dynamic. Applying on a range of theoretical traditions to core propositions the book is clear and accessible; real world examples, including the history of car driving, the emergence of frozen food, and the fate of hula hooping, bring abstract concepts to life and firmly ground them in empirical case-studies and new research. Demonstrating the relevance of social theory for public policy problems, the authors show that the everyday is the basis of social transformation addressing questions such as: / how do practices emerge, exist and die? / what are the elements from which practices are made? / how do practices recruit practitioners? / how are elements, practices and the links between them generated, renewed and reproduced? Precise, relevant and persuasive this book will inspire students and researchers from across the social sciences.

当时了解了下behaviour change的最新理论，比较直白好懂。

特别喜欢读Shove阿姨的东西。她分析起，洗澡啊，开车啊，都可欢快了。
