The Tugendhat House in Brno (Czech Republic) was named by UNESCO in 2001 as one

of the most important buildings of modern architecture and as a World Heritage Site. Mies van der Rohe designed and built it in 1928-1930 and it is beyond any doubt one of the pinnacles in his career. Based on the monograph of 1998 (in English: 2000) the authors describe the complex aspects of this house: personal, historical, art historical, architecture theoretical and restoration scientific ones. Most recent additions include personal reminiscences, photography experiments by Fritz Tugendhat and previously unpublished footage from the family mansion, the house's history after 1997, the conservation of scientifically important materiality of the house and comments on the methodology and techniques of restoration in 2010-2012.

好书齐分享，非常详实地记录了图跟哈特住宅里的故事，包括大大小小的翻修状况。另外，老图家几辈人的裸照估计都在里面了。

收录了Grete and Fritz Tugendhat的第一手资料，另Tegethoff的分析很详细

Grete's response to "Is Tugendhat habitable?" p. 34.
