"In the more than 40 years that he spent working at Braun, Dieter Rams established himself as one of the most influential designers of the twentieth century. His elegantly clear visual language not only defined product design for decades, but also our fundamental understanding of what design is and what it can and should do. Dieter

Rams created ten rules of design more than twenty years ago. Sometimes referred to as the ten commandments, they are just as relevant today: Good design is innovative. Good design makes a product useful. Good design is aesthetic. Good design helps a product to be understood. Good design is unobtrusive. Good design is honest. Good design is durable. Good design is consistent to the last detail. Good design is environmentally friendly. Good design is as little design as possible. Less and More elucidates the design philosophy of Dieter Rams. The book contains images of hundreds of Rams's products as well as his sketches and models from Braun stereo systems and electric shavers to the chairs and shelving systems that he created for Vitsoe and his own company sdr+. In addition to the rich visual presentation of his designs, the book contains new texts by international design experts that explain how the work was created,

describe its timeless quality, and put it into current context. In this way, the work of Dieter Rams is given a contemporary reevaluation that is especially useful in light of the rediscovery of functionalism and rationalism in today's design. Less and More shows us the possibilities that design opens for both the manufacturer and the consumer as a means of making our lives better through attractive, functional solutions that also save resources. 书评

昨天拿到书，看不懂英文内容。图片的解释有说服力。经典式的设计理念在现在的BRAND已经找不到了，全给了APPLE。

Dieter Rams的设计十原则，平面构成，草图，还有生活照。很值得买的一本书。深深影响了后来的SONY, APPLE等公司的设计，觉得很多产品外形都那么似曾相识，也许是great minds think alike吧。配色上也有很细致，周到的感觉。
