isbn:9780195381979

Tense and aspect are means by which language refers to time-how an event takes place in the past, present, or future. They play a key role in understanding the grammar and structure of all languages, and interest in them reaches across linguistics. The Oxford Handbook of Tense and Aspect is a comprehensive, authoritative, and accessible guide to the topics and theories that currently form the front line of research into tense, aspect, and related areas. The volume contains 36 chapters, divided into 6 sections, written by internationally known experts in theoretical linguistics.

老样子，存在量词跟全称量词都算小case啦，爆出一堆formal presentation人就彻底懵掉了，而且有些章节tree diagram都画得怪怪的……
