The exponential growth of clinical psychology since the late 1960s can be measured in part by the extensive-perhaps exhaustive-literature on the subject. This proliferation of writing has continued into the new century, and the field has come to be defined as much by its many topics as its many voices. The Oxford Handbook of Clinical Psychology synthesizes these decades of literature in one extraordinary volume. Comprising chapters from the foremost scholars in clinical psychology, the handbook provides even and authoritative coverage of the research, practice, and policy factors that combine to form today's clinical psychology landscape. In addition to core sections on topics such as training, assessment, diagnosis, and intervention, the handbook includes valuable chapters devoted to new and emerging issues in the clinical field, including health care reforms, cultural factors, and technological innovations and challenges. Each chapter offers a review of the most pertinent literature, outlining current issues and identifying possibilities for future research. Featuring two chapters by Editor David H. Barlow -- one on changes during his own 40-year odyssey in the field, the other projecting ten themes for the future of clinical psychology -- The Oxford Handbook of Clinical Psychology is a landmark publication that is sure to serve as the field's benchmark reference publication for years to come. It is an essential resource for students, clinicians, and researchers across the ever-growing clinical psychology community.

评论

作为临床心理学的百科全书，读者能轻易到从这近千页的内容中找到自己感兴趣的部分。历史、政策、研究方法、评估、学校心理治疗、临床实践、职业道德、公共卫生、面谈与个案、诊断手册、各类精神疾患介绍、科技影响与应用、司法应用、临床神经心理学、在各种场合使用的各种干预方法、行为形成与危机、婚姻家庭疗法、为性取向不同的人群提供心理健康服务、为存在文化差异性的群体提供心理健康服务等等。说实话，内容太多，我自己都只是选取了几章感兴趣的进行阅读，感觉还不错，尤其是科技影响

与应用的那章最是有趣。说一下缺点：一是那些介绍各类疾患的信息有些过于基础，基本上没有什么深度，这也许对初学者有好处，但对内行则有点鸡肋感；二是本书出版于2011年，早于2013年出版的DSM5，这样一来有些信息可能会有过时之嫌，还需要读其它书。

总结下教授对这本的评价就是：One of the best guidance books for psychological counselors；one of the worst textbooks for psychology students（“同学们瞧瞧，连插图都没有一张呢！”）。内容多到让外行头皮发麻。
