isbn:9780415179904

This text provides a comprehensive historical account of the evolution of the global drugs control regime. Including coverage of substances from heroin and cocaine to morphine, stimulants, hallucinogens and alcohol, the book addresses: the historical development of drug laws, drug-control institutions, and attitudes about drugs, and international control negotiations and the relationship between the drug question and issues such as trade policy, national security concerns, the Cold War and medical considerations.

作者介绍:

William B. McAllister is Lecturer in History and Faculty Consultant at the Teaching Resource Center at the University of Virginia.
