In this book, Leon Zamosc provides an account of the history of ANUC and its struggle on three main fronts: for land, for the defence of the colonists, and for the protection of smallholders. The main focus of the book is on the land struggles. Professor Zamosc adopts a structural perspective, examining the agrarian contradictions that propelled the peasant struggles, the changing relationship between the peasant movement and the state, and the political and ideological content of the peasant challenge. He explores these issues in the light of the shifting patterns of class alignments and antagonisms that marked the rise and decline of peasant radicalism during the 1970s, and offers some suggestions about the significance of ANUC's struggles for the understanding of peasant movements in general.
