Within a variety of historical contexts, *The Shaping of Grand Strategy* addresses the most important tasks states have confronted: namely, how to protect their citizens against the short-range as well as long-range dangers their polities confront in the present and may confront in the future. To be successful, grand strategy demands that governments and leaders chart a course that involves more than simply reacting to immediate events. Above all, it demands they adapt to sudden and major changes in the international environment, which more often than not involves the outbreak of great conflicts but at times demands recognition of major economic, political, or diplomatic changes. This collection of essays explores the successes as well as failures of great states attempting to create grand strategies that work and aims at achieving an understanding of some of the extraordinary difficulties involved in casting, evolving and adapting grand strategy to the realities of the world.

modest in defining aims and patience in achieving them...

(比方说，我先挣它个亿，你看能不能用几年，哈哈，纯属乱入了)

第一章有些理论味道，其余各章都是历史案例研究。目前战略领域的研究是历史太多而理论太少，尽管历史研究是第一位和最重要的。

我想问这个英文原版书怎么找它是否在国内有中文译本
