通过书中的内容了解到了新版本在企业内部应用的一些新功能，确实比以前想象的要多——以前光看界面和试玩儿总让人觉得是微软专供平板的产品而已。不过目前在公司里部署这个不太现实，比较而言，还是 Windows Server 2012 来得更及时。

Just a brief of Windows 8 client and 2012 server. 121 pages does not mention anything in details. Tell us what could be done in Win8/2012
