《Advances in Scientific Computing and Applications》: This volume is a collection of 39 papers presented at the Third International Workshop on Scientific Computing and Applications held in January 2003 at City University of Hong Kong (<http://math.cityu.edu.hk/sca03>). The first and the second workshops of the series were held at City University of Hong Kong in December 1998 and Banff, Alberta, Canada in May 2000, respectively. The aim of the workshop is to bring together mathematicians, scientists and engineers working in the field of scientific computing and its applications and to provide a forum for the participants to meet and exchange ideas in an informal atmosphere.
