In this 32-page lap book we join Cassie, the main character from the picture book *Tar Beach*. As she takes us on a tour of her home, neighborhood, and school, dozens of new words are introduced with simple labels throughout. Young readers will love the simple story line and all the new words they'll encounter. They'll relish the beautifully designed spreads, each with its own quilt motif. The bright, boldly colored pages will attract even the youngest lookers, and the words will teach pre-reading skills

to slightly older children. The size makes it perfect for story hours, and the price makes it perfect for every home.
