New design for this favourite unabridged story from the grand master of storytelling. Read by Roald Dahl, himself. "Go and stand in the corner," Mrs Winter said. Then I got cross, and I saw red, and I put the Magic Finger on Mrs Winter good and strong, and almost at once! Guess what?! Watch out for the little girl in this story! When someone makes her angry, and when she can't stop herself, she flashes a punishment on them with a magic flashing finger. The results are fantastic, magical and very funny, for readers aged 5+!
