Ramona's back and more fun than ever as she enters the fourth grade in this newest addition to the Ramona series. And things are off to a rousing start for the perky ten year old when she has a great first day of school, writing a gem of an essay about her new baby sister Roberta, and making a new best friend. But her elation is short-lived when she discovers that her spelling is in dire need of attention and Mrs. Meacham isn't quite as nice as she first appeared. Of course, the cast for Ramona's fourth grade adventures wouldn't be complete without big sister Beezus, annoying Susan, and the increasingly appealing Yard Ape. They're all here, along with a few new faces to delight listeners with the continuing adventures of a spunky heroine who's an inspiration to generations of fans the world over.
