This extraordinary collection of over two dozen business success stories reveals firsthand how personal financial freedom can be generated by applying the principles from the #1 New York Times bestseller Rich Dad Poor Dad. Thousands of readers have gone on to greater wealth by applying the Rich Dad philosophy since the series debuted in 1997. Now, over two dozen people from diverse economic backgrounds reveal the successful strategies they used to get out of the 'rat race,' including couples in their twenties, people who've lost their jobs, retirees, and budding entrepreneurs. Some were living paycheck-to-paycheck before starting to buy small rental properties; others climbed out of bankruptcy by slowly investing in small, local businesses; and a 13-year-old bought his first rental property after playing the Rich Dad board game, Cashflow 101. Now they share their stories to help others achieve their financial success.
