core curriculum of an MBA program works in the real world. People like Michael Porter, Rosabeth Moss Kanter, Adrian J. Slywotzky, Warren Bennis, and Bill George give you a box full of ideas and tools that can boost your career and help you add value to your organization. For example:

- Why finance is not just about manipulating numbers but of immense importance in sustaining growth, building widespread wealth, and creating jobs.
- The profit zone and how to tell if a business is in one.
- The skill of turning an idea or invention into a product that solves a problem for a market.
- Merging the need of business to produce and grow with the environment so they are both sustained.
- The latest thinking in marketing about branding, pricing, reversing a product's life cycle, and turning what has become a commodity into a specialty.
- And much more.
