- Erwin Blumenfeld (1897-1969) created some of the most memorable fashion imagery of the 1930s, 1940s and 1950s- Contains photographs that were seen by millions in Vague, Harper's Bazaar and Cosmopolitan- Seminal innovator of colour photography when the medium was just developing- Photographs are rich in hybrid. Imagery, imbuing images of celebrities and black-and-white graphical shapes with saturated colour and eroticism- Offers new interpretation to key works and features little-known surrealist images
