Navigate the uniqueness of this picturesque and happening city with this handy map. From the main attractions to the best local places, let this map guide you through your own Amsterdam experience.

Highlights of the City found on this Map include:

- The Rijksmuseum - Opened in 1885, the Rijksmuseum holds the Netherlands' largest collection of art and artefacts.
- The Van Gogh Museum - This namesake museum holds many of the artist's most famous works.
- The Anne Frankhuis - More than 900,000 people a year cram into Amsterdam's most famous canal house to experience the ordeal of a young girl who document part of WWII's horrors as no-one else did.
- The Jordaan - This district is one of Amsterdam's most charming and relaxing.
- The Red Light District - There's something oddly compelling about Amsterdam's throbbing red light district. Despite the sleazy vibe, the red light district is quite safe for tourists.
- The Southern Canal District - The distinctive canal architecture makes this a superb place for an extended stroll.
