In lavish two-page spreads, this book presents more than ninety of history's most memorable photographs.

The volume features pictures from photography masters such as Lewis Hine, Dorothea Lange, Yousuf Karsh, Diane Arbus and James Nachtwey, as well as iconic images from lesser-known and anonymous photographers. Now available as an attractively priced flexi edition, Photos That Changed the World has been updated to include indelible images of the most significant recent events. Engaging essays accompany each photograph and tell the story behind each image.
