Paper John moves to a little town by the edge of the sea and makes his living folding beautiful paper flowers, birds, and boats. HE is so skilled he even makes a paper house to live in. And he is so gentle and good-natured that the townsfolk all agree he could get along with the devil himself. But when a devil comes to town, Paper John's skill and patience is put to the test as he does battle with the devil and his one devilish

trick. Lively full-color paintings add to all the fun.David Small is the illustrator of many books for children, including Anna and the Seven Swans, a Booklist Editor's Choice and a School Library Journal Best Book for 1984. His most recent book, Imogene's Antlers, is a 1986 Reading Rainbow Feature Selection. This is his first book with Farrar, Straus and Giroux. Mr. Small lives in Kalamazoo, Michigan.
