This Reader recounts the story of the emergence and impact of postmodern thought in

human geography. The editors have brought together in a single volume the pivotal writings of the period since 1965. Through these, and their connecting narratives, the editors engage what has been the most invigorating intellectual roller-coaster ride in geography's recent history.

Recounts the story of the emergence and impact of postmodern thought in human geography.

Brings together in a single volume the pivotal writings of the period since 1965.

Engages with what has been the most invigorating intellectual roller-coaster ride in geography's recent history.

Eraces the shift in human geography from a plethora of pre-postmodern paradigms to the emergence of a postmodern consciousness.

Outlines an agenda for a postmodern human geographical theory and practice that sympathetically intersects with feminism, postcolonialism, cultural studies, and environmentalism.
