出版时间:2001-12

装帧:

isbn:9780415165112

This brilliant collection aims to tell the story of classical literature: how it developed, flourished, and changed throughout the ages. The individual essays, which constitute the main body of the book, give for each of the fifty authors a substantial introduction to the author's life, works, and cultural and social positions. The essays collectively create an overall sense of the main periods of the flowering classical culture, and of the significance of historical events which affected it.
