出版者:Random House Inc

出版时间:2003-3

装帧:Pap

isbn:9780375710124

A new paperback edition of an early collection from Edward Hirsch, who has been called, by Harold Bloom, "utterly fresh, canonical, and necessary, " and by Robert Coles: "one of the finest poets we have." Whether describing pines and cedars in the night forest or a cat's purring as exquisite instruction in the art of praise, these poems express profound gratitude for life.
