# Auto Legends

著者:Michel Zumbrunn

出版者:MERRELL

出版时间:2004-11

装帧:

isbn:9781858942162

Over sixty of the most important cars ever designed are featured in this sumptuously produced book. Every car has been stunningly photographed from different angles and in detail by Michel Zumbrunn, described as "one of the world's most successful car photographers". Each car is introduced by world-renowned motoring journalist Robert Cumberford, who shares his astounding knowledge of the automotive industry with the reader and highlights the essential elements of each vehicle's design. Features illustrated biographies of key designers, a full technical glossary and details of museums and public collections around the world where the featured cars may be seen.
