Marie-Jeanne Lorente, an experienced artist and teacher, tells you everything you need to know, from assembling the simple equipment to gathering and processing plant fibers, including cooking, bleaching, rinsing, adding textures to the pulp, and drying the sheets of paper. Hundreds of beautiful color photographs illustrate the procedures as

well as the plant materials and the unique papers they produce. The works of nine accomplished paper artists-whose creations run the gamut from sculpture and handmade books to hats are included.Ideal for the beginning papermaker as well as more seasoned artists and designers, The Art of Papermaking with Plants provides stimulating papermaking projects for all craftspeople.Recipes include: Vegetables: artichoke, eggplant, shallot skin, wild fennel, bay leaf, rice, tomato . Plants: bamboo, wheat, sedge plant, autumn crocus, fern, daylily, iris, lavender, cattail, stinging nettle, yucca. Trees: hornbeam, chestnut, oleander, red maple, ginkgo biloba, palm, wild olive, pistachio, lime-and more.
