It drives you nuts reading how the protagonist spends a fortune on her clothes, shoes, bags.....well the brand names. But this series is totally hilarious. Can rival with Bridget Jones's Diary.

史上读的最快的书，6天！ A real happy relaxing worrying fun read!

前几章把女主写的太dumb了，不看了！

interesting book for girls (esp material girl ;-P)

Girls who are addicted to shopping will love this one! British author Sophie Kinsella's serial novels 1#. See how it veraciously describes our shopaholics' life style. (Well, at least close to mine...) Funny and good as leisure/holiday travel read.
