Set in 1964, Barefoot in the Park follows the lives of newlyweds Paul and Connie Bratter as they adjust to married life in a tiny Greenwich Village apartment. Paul is a lawyer whos wound up a little too tight, while Connie is a free spirit bubbling over with romantic notions. In typical Simon style, all manner of comic chaos ensues as the Bratters marriage begins to collapse under the pressure of a five-flight walk-up, a skylight that leaks snow, an eccentric neighbor who must climb through their apartment to get to his, and Connies misguided attempt to marry off her mother. Acclaimed playwright, Neil Simon, is a Pulitzer Prize- and Tony Award-winning author. Neil Simons comedy Barefoot in the Park is 30-something now, but its newlywed protagonists, the Bratters, remain forever young. The Dallas Morning News
