isbn:9780761913481

Lauded by thousands of readers for providing researchers with the first practical approach for doing systematic literature reviews, this popular book has been thoroughly updated and revised to include the latest information on the use of electronic technology and the Internet to conduct literature searches. This new edition of Synthesizing Research includes expanded discussion of retrieving and coding information from research documents to the production of coding sheets, as well as updated coverage of report writing that includes APA's new guidelines and recent practices adopted by research syntheses.
