The 'war on terror' is merely child's play. There will come a time when terrorists will declare real war, on each other, and you'll be forced to take sides. You've seen the horror that freedom-fighters can unleash. You've seen the devastation that demented terrorists can inflict. But could you combat the new breed of sophisticated terrorists who are intent on absolute power? Could you out-smart educated terrorists who seek retribution in the name of righteousness? Would you ever condone vigilante terrorists who commit the worst of acts for the purest of motives? This novel is about a group of inspired terrorists whose actions not only changed the world, but also distorted it. They made their mark in a way that no dictator or fanatic had ever managed. No think-tank and no government had ever predicted such a scenario.
