A behind-the-scenes, in-depth look at the making of one of the greatest sonic masterpieces and most commercially successful albums of all time

Floyd's The Dark Side of the Moon (1973) is one of the most beloved albums of all time. A sonically stunning exploration into dark themes of madness, death, anxiety, and alienation, it has sold a staggering 30 million copies worldwide, and continues to sell 250,000 copies a year. Besides being perhaps the most fully realized and elegant concept album ever recorded, The Dark Side of the Moon was also one of the most technically advanced LPs of its day. It has aged remarkably well and still sounds as

contemporary and cutting edge as it did on the day it was released. A perfect blend of studio wizardry and fearless innovation, The Dark Side of the Moon is illuminated by John Harris's exploration of the band's fractured history, his narrative skill, and his deft exploration of the album's legacy, such as its massive influence on bands like Radiohead and Nine Inch Nails.

Drawing on original, new interviews with every member of the band-bassist and chief songwriter Roger Waters, guitarist Dave Gilmour, keyboardist Rick Wright, and drummer Nick Mason-The Dark Side of the Moon is a must-have for the millions of devoted fans who desire to know more about one of the most timeless, compelling, commercially successful, and mysterious albums ever made.

评论

很心酸的是讲到录wish you were here, "most of us didn't wish we were there at all because I got the feeling we weren't together"
。月之暗面在我心里不是最喜欢的pf专的原因大概也得到了印证，他们对名声金钱的强烈渴望在出月暗专前达到了顶峰， 尽管写出了money，但讽刺的是这使他们得以享受别墅和大麻。所以水爷也说, I have to accept I became a capitalist...you can espouse humanitarian ideas, which I still do, but things are that bit more complicated.
