These richly illustrated art books cover several centuries of great artists and their masterworks. From Rubens to Dali, each artist's life and times, influences, legacy, and style are explored in depth. Each book analyzes a particular painting with regard to the history surrounding it, the techniques used to create it, and the hidden details that

make up the whole, providing a thorough look at each artist's career. Included is a bibliography, a chronological reading of principle works, a brief life history, and listings of public collections featuring each artist.
