著者:Thomas Crow

出版者:Yale University Press

出版时间:1998-09-10

装帧:Paperback

isbn:9780300076493

In this illuminating book, a prominent art historian explores the links between avant-garde art and modern mass culture, showing that the connections between the two have always been strong, and even necessary to both. The author recounts vivid episodes involving Jackson Pollock, Andy Warhol, Christopher Williams, and many others, arriving at fresh and original insights into modern art and its place in late twentieth-century culture.
