Like other kids in the Bedford-Stuyvesant neighborhood of Brooklyn, Ejovi Nuwere grew up among thugs and drug dealers. When he was eleven, he helped form a gang; at twelve, he attempted suicide. In his large, extended family, one uncle was a career criminal, one a graduate student with his own computer. By the time Ejovi was fourteen, he was spending as much time on the computer as his uncle was. Within a year he was well on his way to a hacking career that would lead him to one of the most audacious and potentially dangerous computer break-ins of all time, secret until now.</p>

Before he finished high school he had created a hidden life in the hacker underground and an increasingly prominent career as a computer security consultant. At the age of twenty-two, he was a top security specialist for one of the world's largest financial houses.</p>

Hacker Cracker is at once the most candid revelation to date of the dark secrets of cyberspace and the simple, unaffected story of an inner-city child's triumph over shattering odds to achieve unparalleled success.</p>
