著者:Pallavi Jain

出版者:Premier Press

出版时间:2002-04-02

装帧:Paperback

isbn:9781931841221

Use Java 2 Enterprise Edition to accomplish real-world, professional tasks. Incorporating three hands-on projects, J2EE Professional Projects is your key to unlocking the power of J2EE. Each project focuses on a specific concept and is based on a real-world situation. Using the projects as your guide, you will create a chat

application, create an online banking application, and create an online music application. You will be able to use the skills that you develop throughout the book to modify the projects to fit your professional needs.

书评

以前一直没有怎么读过Java工程方面的图书。拿一本，语法，再换一本，还是语法！反倒不明白这些语法是拿来干什么的。

该书的起点不高，有一点语言基础就可以上手了。书中的三个实例完全按照规范的开发流程进行，相信对我这个初学者而言，不无裨益。三个实例如下： 1. 聊...
