This hardcover book brings together 20 of what fashion illustrator Liselotte Watkins

calls her "girls," the Art Nouveau-ish drawings that have become her trademark and have been featured in publications such as *bersee*, *Vogue*, *Elle*, *Glamour* and *Mademoiselle*. The black and white illustrations included here tell absorbing visual stories in a language that is purely graphic and consists of lines instead of letters.

When asked how she was able to give her seemingly simple drawings such personality, Watkins replied: "They're all people to me. I work out their whole story; where they live, if they have a boyfriend, their bank balances and their style. That's why one girl might have only the jacket of a Victor & Rolf suit; she lost her job the week before so she can't afford the rest of it."

Watkins' *Heroines* is available in a strictly limited edition
