The words and meanings given in this dictionary are those most likely to be encountered in general use across a wide range of subject areas, including those in the school curriculum. All meanings are written in a clear easy-to-understand style and examples have been taken from the Bank of English to show natural everyday usage so the dictionary is relevant to today's user. Spelling help is provided by the inclusion of thousands of spelling forms shown in bold type. In addition there are newly compiled usage notes throughout the text which give details of past and present usage and advise the user on current best practice. New words and new meanings arising from continuous language monitoring programme have been added, ensuring that the text is completely up to date and reflects the language of today.
