著者:Harry Allcock

出版者:7-09999

出版时间:2003-5

装帧:

isbn:9780131911598

A complete overview of the synthetic, kinetic, structural, and applied aspects of modern polymer chemistry, this text clearly illustrates the relationship between

fundamental chemistry and the uses of polymers. Polymer Chemistry, featuring new co-author James Mark, also provides coverage of industrial and medical applications. Many of the study questions give answers or require thoughtful utilization of the text material. --This text refers to an out of print or unavailable edition of this title.

MyLab或是Mastering系列是在线作业系统。Access Code Card是在线作业系统的访问码，是老师和学生课堂之外网络互动及交流的平台，个人是无法使用这个平台的。请读者注意您购买的这个ISBN是不带Access Code Card的。
