This handy little reference reads like a virtual who's who of world history. Whether you want to know the date Napoleon died or just the names of some of Chekhov's most famous plays, you'll find what you're looking for in this book's pocket-sized pages. More than 7,000 entries chronicle the lives, deaths, and achievements of historical figures from Attila the Hun to Andy Warhol, including major works, prizes won, and principalities conquered. There's even a pronunciation guide to help make sure you don't suavely drop that reference to the work of Mies van der Rohe, then make his first name rhyme with "skies."
