出版时间: 2000-10-01

装帧: Hardcover

isbn: 9781577171478

Filled with spectacular color photos and intriguing detail, these informative books belong in the library of every student of architecture.

Architecture for museums has changed drastically over time. This brilliantly illustrated volume offers a study of the great museum buildings of the seventeenth through the early twentieth centuries followed by a consideration of today's innovations in the arrangement of space and light for the display of artworks.
