

Language and Society

[Language and Society_ 下载链接1](#)

著者:William Downes

出版者:Cambridge University Press

出版时间:1998-10-28

装帧:Paperback

isbn:9780521456630

This thoroughly revised and updated edition of Downes' textbook is an accessible introduction to the social aspects of language and their various explanations. Topics covered include domains of language use, language change, code-switching, speech as social action, and the nature of meaning and understanding. This new edition includes an up-to-date analysis of language standardisation, language conflict and planning.
