出版时间:2003-07

装帧:Hardcover

isbn:9780393977677

Originally published in 1981 and now considered a classic text, Psychology presents a cohesive overview of the discipline that emphasizes connections to both the natural

sciences and the humanities. For the Sixth Edition, Henry Gleitman and co-authors have undertaken a comprehensive revision, reorganizing and tightening the overall chapter structure and emphasizing contemporary theories and research throughout, particularly new findings in neuroscience and culture studies.
