著者:Connally, Craig

出版者:McGraw-Hill

出版时间:2004-12

装帧:Pap

isbn:9780071430104

The first mountaineering instructional guide to focus exclusively on the kind of mountaineering most climbers do, and to collect the best modern practices in one popular resource Complete and up to date. Emphasizes the best modern practices for alpine rock, snow, and ice.Uniquely focused. Omits what is too basic such as camping

and backpacking and what is too advanced, such as fifth-class climbing in its various forms and expeditionary climbing.
